

LB02-EX LITTLE BUDDY EXHAUST ASSEMBLY INSTRUCTIONS

ENM-4110-00

ORIGINAL DOCUMENT

Assembly and Operating Instructions

Please review these instructions prior to assembly.

LB02-EX is suitable for use with BBC Conveyor Dryers equipped with 4 – 6-inch duct start collars.

1. Install one of the provided duct reducers to the duct start collar of your dryer. Not required for dryers with 6-inch duct start collars.
2. Secure the reducer using 2 sheet metal screws provided; place the screws 180° from each other. (Screws are shipped with booster fan).
3. Install the 24-inch-long duct. Secure using 3 sheet metal screws provided; place the screws 120° from each other. (Screws are shipped with booster fan).
4. Install booster fan to top end of the Duct. **IMPORTANT:** Flow arrow on booster fan must point away from chamber. Secure using 3 sheet metal screws provided; place the screws 120° from each other. (Screws are shipped with booster fan).
5. Booster fan can be wired into a junction box (not furnished) or plug (not furnished) compatible with electrical codes in your area.

CAUTION: Hazard of Electric Shock. Disconnect all power before working on equipment.

Please contact the service department at *BBC Industries* (800-654-4205) or service@bbcind.com with any questions regarding these instructions.
